## ALUMINUM NOZZLES

Optional aluminum nozzles **will not** connect to the standard Aerospace Polymer Nozzle (Part# 2851).  
Requires: Two 45° elbow segments (Part# 1171) and two additional clamp bands (Part# 1173).

12" Extension - Part# 1468  
20" Extension - Part# 1845

10" Round Nozzle - Part# 1417

12" Round Nozzle - Part# 1172

Improves air velocity with lower horsepower and hydraulic blower units

10" Rectangular Nozzle - Part# 1469

19" Rectangular Nozzle - Part# 1425

5.5"x15" opening - extra length/more concentrated air flow. Uses - heavy wet debris, plugs, top dressing. No ground clearance in the vertical down position.

Fishtail Nozzle - Part# 1743

5"x30" (wide angle) opening. Distributes a large volume of air at a lower velocity over a wide area. Easily converts blower into a "Greens Fan". Adaptable to all models. Not as effective at moving debris.

## CLAMP BAND W/ BOLT & NUT

Part# 1173

## QUICK CONNECT CLAMP BAND

Part# 4935

Quickly remove or add nozzle with the barrel style clamp band.

## FORK POCKETS

Part# 4552

Great for moving blowers around jobsites and bed mount / skid mount applications.
